Concurrent Approach to Flynn's MPMD Classification through Java

Bala Dhandayuthapani Veerasamy

FPGA Design and Implementation of Matrix Multiplier Architectures for Image and Signal Processing Applications

Syed M. Qasim, Ahmed A. Telba, Abdulhameed Y. AlMacroo

Hierarchical Status Information Exchange Scheduling and Load Balancing For Computational Grid Environments

Malarvizhi Nandagopal, Rhymend V Uthariaraj

A Cipher based on 3D Array Block Rotation

P. R. Suri, Sukhvinder Singh Deora

An Object Oriented Modeling and Implementation of Web Based ETL Process

Radha Krishna, Sreekanth

Reconfiguring State Health Services Logistics : Patients Flow Optimization

Cassius Tadeu Scarpin, Maria Teresinha Arns Steiner, Pedro José Steiner Neto

**Reducing Power Consumption in Wireless Sensor Networks by using
Terrain Based Probabilistic Forwarding Scheme (TBPFS)**

S.Anandamurugan, C.Venkatesh

An Efficient Ranking Module for an Arabic Search Engine

Esraa Abd Elraouf, Nagwa Lotfy Badr, Mohamed Fahmy Tolba

An Efficient Modified Advanced Encryption Standard (MAES) Adapted for Image Cryptosystems

Abdulkarim Amer Shtewi, Bahaa Eldin M. Hasan, Abd El Fatah. A. Hegazy

Contrast Improvement of Radiographic Images in Spatial Domain by Edge Preserving Filters

K. Arulmozhi, S. Arunuga Perumal, K. Kannan, S. Bharathi

Proposing a New Energy Efficient Routing Protocol for Wireless Sensor Networks

Seyed Mahdi Jamei

**Design analysis and implementation of efficient parameter free algorithm
for high quality homogeneous clusters in data mining applications**
