

International Journal of Computer Science and Network Security

WWW.IJCSNS.ORG

Uncertainty Handling in Knowledge Based Systems

Sandhia Valsala, Bindhya Thomas

Partial Redundancy Elimination for Multi-threaded Programs

Mohamed A. El-Zawawy, Hamada A. Nayel

Face Recognition using Principle Component Analysis with Different Distance Classifiers

Hussein Rady

Scheduling of Tour Guides for Tourism and Leisure Industry using Cellular Genetic algorithm

Moataz El Zoghby, Amr Badr, Abd El Fatah Hegazy

A Case Study of Practical Course Timetabling Problems

Rafidah Abdul Aziz, Masri Ayob, Zalinda Othman

Iterative Memory Shared Processor Array (MSPA) Architecture Design for Channel Estimation of Downlink OFDM IEEE 802.16a System

Savitri Galih, Trio Adiono, Adit Kurniawan, Iskandar

USB Key as an active device of Security System

Mohammed Nasir Uddin, Selina Sharmin, Abu Hasnat Shohel Ahmed, Emrul Hasan, Shahadot Hossain Muniruzzaman

A Study of Clustering and Classification Algorithms Used in Datamining

Sandhia Valsala, Jissy Ann George, Priyanka Parvathy

Monitoring and Evaluation of Global System for Mobile Communication (GSM) Signal Strength at 900MHz in Sub Urban Area

Shalangwa D. A., Singh S. K.

A Model Approach for the Analysis of Dominant Factors in ERP Software Implementation

Fahad N. Al-Aboud

Modifications to AES Algorithm for Complex Encryption

Priyanka Pimpale, Rohan Rayarikar, Sanket Upadhyay

A New Model for an Examination-Room Assignment Problem

Masri Ayob, Ariff Malik

An Efficient Feature Selection Technique for User Authentication using Keystroke Dynamics

D. Shanmugapriya, G. Padmavathi

State-Of-The-Art on Reactive Search

Masri Ayob, Mohd Zakree Ahmad Nazri, Abdul Razak Hamdan, Erna Budhiarti Nababan, Hafiz Mohd Sarim

Vertical Handoff in Future Heterogenous 4G Network

Mithun B Patil
