

# International Journal of Computer Science and Network Security

IJCSNS October 30, 2011

**Trust-based Service Provider Selection in Service-oriented Environments**

*Xing Su, Minjie Zhang, Yi Mu, Quan Bai*

**Secured Public key Authentication and Energy Efficient MAC Implementation in Wireless Sensor Networks**

*Manoj Challa, M. Damodar Reddy, P. Venkata Subba Reddy, Jitendra Nath Mungara*

**A Survey of Biometrics Security System**

*Mohammed Nasir Uddin, Selina Sharmin, Abu Hasnat Shohel Ahmed, Emrul Hasan, Shahadot Hossain, Muniruzzaman*

**Benefits of Honey pots in Education Sector**

*Ateeq Ahmad, Muhammad Ali, Jamshed Mustafa*

**Improvement of EEG Processing System "BBFFT2ANOVA" - To Generate Detailed Graph Data Corresponding to ANOVA Results -**

*Takashi Ajiro, Koichiro Shimomura, Hirobumi Yamamoto, Kenichi Kamijo*

**Improved Model for a Non-Standard TCP Behavior**

*Mohammed Abdullah Alnuem*

**Path Computation Algorithms Using SDH Multiplexing Mechanism**

*Loay Alzubaidi*

**An Autonomic Distributed Algorithm for Forming Balanced Binary Trees of Nodes in a Structured P2P System in a Multicast-enabled Environment**

*Takashi Yamanoue, Kentaro Oda, Koichi Shimozone*

**The Least Expectation First (LEF) Media Caching Policy**

*Kyungwoon Cho, Hyokyung Bahn*

**A Computer-Aided System for Classifying Computed Tomographic (CT) Lung Images Using Artificial Neural Network and Data Fusion**

*Hanan M. Amer, Fatma E.Z. Abou-Chadi, Marwa I. Obayya*

**Radio Resource Management in CDMA 4G Networks, Based on Mutual Frequency Assignment**

*Alam N. Shaikh, S. K. Bodhe*

**A Web Page Segmentation Method based on Page Layouts and Title Blocks**

*Hiroyuki Sano, Shun Shiramatsu, Tadachika Ozono, Toramatsu Shintani*

**The Bayesian Optimal Algorithm for Query Refinement in Information Retrieval**

*Yasunari Maeda, Fumitaro Goto, Hiroshi Masui, Fumito Masui, Masakiyo Suzuki*

**Spiking Neural P Systems with Memory**

*Ammar Adl, Amr Badr, Ibrahim Farag*

**A New Model for an Examination-Room Assignment Problem**

*Masri Ayob, Ariff Malik*

**The Use of Real Option Analysis (ROA) to assist in Security Solution Decisions**

*Razib Hayat Khan*
