**ABSTRACT** ....................................................................................................................................................... v  
**KATA PENGANTAR** .................................................................................................................................. vi  
**DAFTAR ISI** ................................................................................................................................................ viii  
**DAFTAR GAMBAR** ............................................................................................................................... xi  
**DAFTAR TABEL** .......................................................................................................................................... xii  

### BAB I PENDAHULUAN

1.1 LATAR BELAKANG MASALAH ................................................................................................. 1  
1.2 RUMUSAN MASALAH ............................................................................................................. 3  
1.3 TUJUAN PENELITIAN .............................................................................................................. 3  
1.4 RUANG LINGKUP PENELITIAN ............................................................................................. 3  
1.5 MANFAAT PENELITIAN ........................................................................................................ 4  
1.6 SISTEMATIKA PENULISAN ....................................................................................................... 4  

### BAB II LANDASAN TEORI

2.1 PENGADAAN ................................................................................................................................. 5  
  2.1.1 Definisi Pengadaan .............................................................................................................. 5  
  2.1.2 Prosedur Kerja Pengadaan ................................................................................................. 5  
  2.1.3 Prosedur Umum Pengadaan ............................................................................................... 6  
2.2 PEMBELIAN ....................................................................................................................................... 6  
  2.2.1 Definisi dan Peranan Pembelian .......................................................................................... 6  
  2.2.2 Fungsi dan Proses Pembelian ........................................................................................... 8  
  2.2.3 Tujuan Pembelian .............................................................................................................. 11  
2.3 PEMASOK ATAU **SUPPLIER** .............................................................................................. 12  
2.4 **BEARING** ................................................................................................................................... 12  
2.5 KRITERIA KINERJA ...................................................................................................................... 13  
  2.5.1 Kualitas ............................................................................................................................... 13  
  2.5.2 Harga ..................................................................................................................................... 14  

2.5.3 Pengiriman ........................................................................................................ 15
2.6 DEFINISI KINERJA ........................................................................................... 15
2.7 PENGUKURAN KINERJA .................................................................................. 16
2.8 METODE ANALYTICAL HIERARCHY PROCESS (AHP) ............................. 17
   2.8.1 Penyususun Struktur Hierarki Masalah ................................................. 18
   2.8.2 Tahapan Penggunaan AHP ...................................................................... 19
2.9 METODE FUZZY ANALYTICAL HIERARCHY PROCESS (FAHP) .......... 22
   2.9.1 Triangular Fuzzy Number (TFN) ............................................................. 22
   2.9.2 Analisa Fuzzy Synthetic Extent ............................................................... 24
   2.9.3 Normalisasi ............................................................................................... 27
2.10 Aplikasi Langkah-Langkah Perhitungan Fuzzy AHP ................................. 28

BAB III METODOLOGI PENELITIAN ............................................................ 29
3.1 FLOWCHART METODOLOGI PENELITIAN ............................................. 29
3.2 PENJELASAN FLOWCHART METODOLOGI PENELITIAN ................. 30
   3.2.1 Observasi Awal ....................................................................................... 30
   3.2.2 Rumusan Masalah .................................................................................. 30
   3.2.3 Tujuan Penelitian ................................................................................... 30
   3.2.4 Ruang Lingkup Penelitian ...................................................................... 30
   3.2.5 Studi Pustaka ........................................................................................... 32
   3.2.6 Studi Lapangan ....................................................................................... 32
   3.2.7 Pengumpulan Data .................................................................................. 32
   3.2.8 Pengolahan Data ..................................................................................... 33
   3.2.9 Analisis ..................................................................................................... 38
   3.2.10 Kesimpulan dan Saran ............................................................................ 38

BAB IV PENGUMPULAN DAN PENGOLAHAN DATA ................................ 39
4.1 PENGUMPULAN DATA ............................................................................... 39
   4.1.1 Sejarah Perusahaan .................................................................................. 39
   4.1.2 Metode Fuzzy AHP ................................................................................ 41
4.2 PENGOLAHAN DATA .................................................................................... 42
   4.2.1 Metode AHP ............................................................................................ 43
   4.2.2 Metode Fuzzy AHP ............................................................................... 53

BAB V ANALISIS .............................................................................................. 64
