Editor's Message

My sincere gratitude goes to the Intellectbase International Consortium (IIC) program committee for their hard work in producing Volume 4, Issue 9. In addition, I want to thank all of the Reviewers' Task Panel (RTP), Executive Editorial Board (EEB), Senior Advisory Board (SAB), and the Contributing & Managing Editors (CME) for their efforts, which has made RMIC a successful and indexed academic Journal. They work hard to review, comment and format the various research papers to fulfill accreditation standards. The articles in this issue offer intellectual contributions and focus on the broadening of academic resources, a continuous development and exchange of ideas among global research professionals.

The review presents detailed theoretical explanations of original developments of managerial perspectives. The content is based on creative thinking, illustrated with real case studies and applied research. The manuscript involves innovative contributions, creative developments and descriptions, in a well-defined format with rich conceptual structures. The topography of management innovation is about the creative development of individual researchers engaged in creative endeavors, across a wide range of disciplines including but not limited to: the Social Sciences, Economics & Finance, Public Policy & Administration, Human Resources, Engineering, Business & Entrepreneurship, Supply Chain Management, Education, Science & Technology and the Arts. RMIC is intended for scholars who are interested in exploring and developing complex compositions that link incongruent elements to knowledge, and integrating them conceptually on a creative scale.

RMIC seeks research innovation & creativity and presents original topics. The goal of the Review of Management Innovation & Creativity (RMIC) is to provide innovative research to the business, government, and academic communities by helping to promote the interdisciplinary exchange of ideas on a global scale. RMIC seeks international input in all aspects of the Journal, including content, authorship of papers, readership, paper reviews, and Executive Editorial Board Membership. We continue to look for individuals interested in becoming a reviewer for Intellectbase conference proceedings and Journals. Potential reviewers should send a self-nomination to the editor at RMIC@intellectbase.org. Reviewers may also be asked to be part of the Executive Editorial Board (EEB) after they have established a positive record of reviewing articles in their discipline.

A COMMITMENT TO ACADEMIC EXCELLENCE

Articles published in the Review of Management Innovation & Creativity (RMIC) have undergone rigorous blind review.

Intellectbase is one of the world's leading publishers of high-quality multi-disciplinary research in both Academia and Industry. Intellectbase International Consortium has an unwavering commitment to providing methodical Journal content and presenting it in a comprehensible format.

In the areas of integrity and journalism excellence, Intellectbase maintains a high editorial standard. Intellectbase publications are based on the most current research information available and are reviewed by members of the Executive Editorial Board (EEB) and Reviewers' Task Panel (RTP). When there is lack of research competence on a topic (conceptual or empirical), together the EEB and RTP provide extensive feedback (based on what is known and accurate) to author(s).
