Concurrent Approach to Flynn’s MPMD Classification through Java
Bala Bhadayawapuni Veerasamy

FPGA Design and Implementation of Matrix Multiplier Architectures for Image and Signal Processing Applications
Syed M. Qasim, Ahmed A. Telba, Abdulsameed Y. AlMazroo

Hierarchical Status Information Exchange Scheduling and Load Balancing For Computational Grid Environments
Malarvizhi Nandagopal, Rhynden V Uthairiasaj

A Cipher based on 3D Array Block Rotation
P. R. Suri, Sukhvinder Singh Deora

An Object Oriented Modeling and Implementation of Web Based ETL Process
Radha Krishna, Srekanth

Reconfiguring State Health Services Logistics : Patients Flow Optimization
Cassius Taden Scarpin, Maria Teresinha Arns Steiner, Pedro Jose Steiner Neto

Reducing Power Consumption in Wireless Sensor Networks by using Terrain Based Probabilistic Forwarding Scheme (TBPFs)
S.Anamadurugan, C.Venkatesh

An Efficient Ranking Module for an Arabic Search Engine
Essa Ab Ebraheef, Nagwa Loisy Badr, Mohamed Fahmy Tolba

An Efficient Modified Advanced Encryption Standard (MAES) Adapted for Image Cryptosystems
Abdulkarim Amer Shewe, Bahua Eldin M. Hasan, Abd El Fatah, A. Hegazy

Contrast Improvement of Radiographic Images in Spatial Domain by Edge Preserving Filters
K. Anurmozi, S. Arumuga Persumal, K. Kannan, S. Bharathi

Proposing a New Energy Efficient Routing Protocol for Wireless Sensor Networks
Sayed Mahdi Jamei

Design analysis and implementation of efficient parameter free algorithm for high quality homogeneous clusters in data mining applications
Prasad S.Halgaonkar, Vijay M.Wadhai, A.D.Potgantwar

A Novel Algorithm for Meta Similarity Clusters Using Minimum Spanning Tree
S.John Peter, S.P.Victor

Real-Time Mobile GIS Prototype: Design, Architecture, and Usability Study
Waleed Alsabhan

Handoff Management Architecture for 4G Networks over MIPv6
Prakash S, C.R.Akki, Kashyap Dhruve

Multilayer perceptrons networks for an Intelligent Adaptive intrusion detection system
Aida O. Ali, Ahmed Sadeh, Tamer Romdan

Low Complexity MMSE Channel Estimation by Weight Matrix Elements Sampling for Downlink OFDMA Mobile Wimax System
Savitri Galihi, Trio Adiomo,Adit Kurniawan

Vehicle Tracking Using a Reliable Embedded Data Acquisition System With GPS and GSM
T.Krishna Kishore, T.Sasi Vardhan, N.Lakshmi Narayana

Adaptive Spatial Prediction For Lifting Scheme in Image Compression
R.Satyabhama, S.Anandaraj

Improved HomePlug 1.0 FEC with SOVA Algorithm and Erasure Decoding
Fatma Rouissi, Fethi Tili, Larbi Ben Hadj Slama, Adel Ghazel

Effective VoD Service Distribution over Cable Television Networks
Lidia Jordanova, Jordon Nenkov

An Effective Key Computation Protocol for Secure Group Communication in Heterogeneous Networks
