SURAT PERNYATAAN ....................................................................... ii
ABSTRAK ......................................................................................... iii
ABSTRACT ....................................................................................... iv
KATA PENGANTAR ........................................................................ v
DAFTAR ISI ..................................................................................... vii
DAFTAR TABEL ................................................................................ xi
DAFTAR GAMBAR ............................................................................ xii

BAB I PENDAHULUAN
  1.1 Latar Belakang Masalah ......................................................... I-1
  1.2 Rumusan Masalah ................................................................. I-2
  1.3 Maksud dan Tujuan ............................................................... I-2
  1.4 Batasan Masalah ................................................................. I-3
  1.5 Metode Penelitian ................................................................. I-3
  1.6 Sistematika Penulisan ......................................................... I-5

BAB II LANDASAN TEORI
  2.1 Multimedia ............................................................................... II-1
    2.1.1 Pengertian Multimedia ................................................. II-1
    2.1.2 Sistem Multimedia ....................................................... II-1
    2.1.3 Multimedia Interaktif .................................................... II-2
  2.2 Adobe Flash ........................................................................... II-3
  2.3 Animasi Flash ......................................................................... II-5
  2.4 Donor Darah ........................................................................... II-7
  2.5 Model ADDIE .......................................................................... II-12
  2.6 Flowchart (Diagram Alir) ..................................................... II-13
  2.7 Pengertian Game (permainan) ............................................ II-15
    2.7.1 Game Get Human Donor ........................................... II-15
    2.7.2 Game Soal Donor Darah ............................................. II-16
BAB III MODEL ANALISIS

3.1 Pembangunan Sistem Dengan Model ADDIE .................... III-1
3.2 Deskripsi Sistem yang Akan Dibangun ....................... III-1
3.3 Analisa Kebutuhan Perangkat Lunak yang Akan Dibangun ..... III-1
  3.3.1 Materi Yang Dibutuhkan ...................................... III-1
  3.3.2 Perancangan Menu Navigasi Aplikasi ........................ III-2
3.4 Struktur Menu Navigasi ............................................. III-4
  3.4.1 Struktur Menu Inti Aplikasi .................................. III-4
  3.4.2 Struktur Submenu Donor Darah ............................. III-4
  3.4.3 Struktur Submenu Persyaratan ............................... III-5
  3.4.4 Struktur Submenu Tips ......................................... III-5
  3.4.5 Struktur Submenu Info ......................................... III-6
3.5 Perancangan Storyboard .......................................... III-6
  3.5.1 Storyboard Halaman Intro .................................. III-6
  3.5.2 Storyboard Halaman Home .................................. III-7
  3.5.3 Storyboard Halaman Donor .................................. III-8
  3.5.4 Storyboard Halaman Persyaratan ........................... III-14
  3.5.5 Storyboard Halaman Tips ..................................... III-17
  3.5.6 Storyboard Halaman Tata Cara Donor ..................... III-19
  3.5.7 Storyboard Halaman Peta .................................... III-20
  3.5.8 Storyboard Halaman Peralatan .............................. III-21
  3.5.9 Storyboard Halaman Gallery Video ......................... III-22
  3.5.10 Storyboard Halaman Game Soal Donor Darah .......... III-23
  3.5.11 Storyboard Halaman Game Get Human Donor .......... III-24
  3.5.12 Storyboard Halaman Info ................................... III-27

BAB IV MODEL PERANCANGAN

4.1 Perancangan Sistem ................................................. IV-1
4.2 Perancangan Flowchart (Diagram Alir) ......................... IV-1
  4.2.1 Flowchart Donor Darah ..................................... IV-1
  4.2.2 Flowchart Persyaratan ...................................... IV-2
  4.2.3 Flowchart Tips ................................................ IV-4
BAB V MODEL IMPLEMENTASI DAN EVALUASI

5.1 Lingkungan Implementasi ........................................ V-1
   5.1.1 Lingkungan Perangkat Lunak (Software) ................. V-1
   5.1.2 Lingkungan Perangkat Keras (Hardware) ................ V-1
   5.1.3 Lingkungan User ............................................ V-1

5.2 Implementasi Interface ........................................... V-2
   5.2.1 Interface Intro ................................................. V-2
   5.2.2 Interface Home .................................................. V-3
   5.2.3 Interface Donor Darah ......................................... V-3
   5.2.4 Interface Tips ................................................ V-4
   5.2.5 Interface Tata Cara Donor ................................ V-5
   5.2.6 Interface Peta ................................................ V-6
5.2.7 Interface Peralatan .......................................................... V-7
5.2.8 Interface Gallery Video ................................................... V-8
5.2.9 Interface Game Soal Donor Darah ..................................... V-9
5.2.10 Interface Game Get Human Donor ................................... V-10
5.2.11 Interface Info ............................................................. V-11
5.3 Evaluasi Aplikasi oleh User ............................................... V-12

BAB VI KESIMPULAN DAN SARAN

6.1 Kesimpulan ........................................................................... VI-1
6.2 Saran ...................................................................................... VI-1

LAMPIRAN .................................................................................. vx
