

## Table of Contents

### SECTION I: MOBILE TECHNOLOGY INTEGRATION

- |  |         |
|--|---------|
| 1. Effects of Different Text Display Types on Reading Comprehension, Sustained Attention and Cognitive Load in Mobile Reading Contexts<br><b>Yung-Ting Chen, Chih-Ming Chen</b>  | 1-16    |
| 2. Facilitating English Language Learners' Oral Reading Fluency with Digital Pen Technology<br><b>Jhih-Kun, Yang, Chih-Ming Chen and Mi Lin</b>  | 17-29   |
| 3. Building graduate Health Informatics programs in the age of information technologies: balancing accreditation, academic, government and industry requirements for online education in the USA<br><b>Lou Chitkushev, Guang Lan Zhang, Yuting Zhang, Robert B. Schudy, Tanya Zlateva, Student Project Group1, Vladimir Brusic</b> | 30-51   |
| 4. Learning Chinese Characters via Mobile Technology in a primary school classroom<br><b>Jie Lu, Daniel Churchill, Sue Meng, Vincent Tam, Anita Chen</b>   | 52-71   |
| 5. Andoroid Apps For Skin Cancer Early Detections<br><b>Marvin Chandra Wijaya</b>  | 72-78   |
| 6. Pilot Implementation Of Online Learning In The Philippines: Challenges And Insights<br><b>Melissa Alma R. Orenca</b>  | 79-111  |
| 7. Development of Augmented Mobile Japanese Language Course for Indonesian High School Students<br><b>Saida Ulfa</b>   | 112-121 |

### SECTION II: SOCIAL MEDIA

- |   |         |
|---|---------|
| 8. A Mobile Informal Learning Solution for Workplace Learners<br><b>Jia Gu ,Jie Lu</b>  | 122-140 |
| 9. Social Network Innovation in the Internet's Global Coffeehouses: Designing a Mobile Help Seeking Tool in Learning Layers<br><b>John Cook , Patricia Santos</b> | 141-159 |

**SECTION III: LEARNING DESIGN**

- |   |         |
|---|---------|
| 10. Learning Instructional Design of eLearning system Data Structure for courses at the University of Widyatama Bandung   | 160-171 |
| <b>Muhammad Rozahi Istambul</b>   |         |
| 11. Extending the pedagogy of mobility  | 172-200 |
| <b>John G. Hedberg</b>  |         |
| 12. Effects of Prior Knowledge and Content Representation on Mathematics Concept Learning in Touchscreen Environment  | 201-215 |
| <b>Thomas Kin Fung Chiu, Daniel Churchill</b>   |         |
| 13. Going beyond textbooks: A study on seamless science inquiry in an upper primary class   | 216-237 |
| <b>Yanjie Song, Siu Cheung Kong</b>   |         |
| 14. Enacting viewing and representing skills in preschool mathematics learning  | 232-249 |
| <b>Kay Yong Khoo, Daniel Churchill</b>  |         |
| 15. Adoption of iPads in Higher Education: A Study of Teacher Thinking and Affordances of Mobile Technology   | 250-265 |
| <b>Daniel Churchill, Jie Lu, Tianchong Wang</b>   |         |
| 16. Hybrid e-Learning Model: Creating and Orchestrating e-Learning Pedagogical Strategies for Pre and Post Seminars Achieving Effective Learning for New Generation Business Students in Higher Education | 266-276 |
| <b>Kumaran Rajaram,</b>   |         |
