DAFTAR GAMBAR

Gambar 1.1 Model waterfall ................................................................. 4
Gambar 3.1 Machine X Rebel clothing Workshop ................................. 11
Gambar 3.2 Promosi Machine X Rebel clothing dengan cara periklanan .... 12
Gambar 3.3 Promosi Machine X Rebel clothing dengan cara promosi penjualan .... 13
Gambar 3.4 Promosi Machine X Rebel clothing dengan cara mengadakan diskon penjualan ................................................................................................................... 13
Gambar 3.5 Promosi Machine X Rebel clothing dengan cara memberikan hadiah .. 13
Gambar 3.6 Promosi Machine X Rebel clothing dengan cara mengadakan acara – acara atau event ................................................................. 14
Gambar 3.7 Use Case diagram model sistem berjalan ......................... 19
Gambar 3.8 Workflow model sistem berjalan ........................................ 20
Gambar 4.1 Perancangan promosi untuk Machine X Rebel clothing ..... 24
Gambar 4.2 Perancangan use case diagram Machine X Rebel clothing .... 28
Gambar 4.3 Perancangan kelas diagram tahap analisis ......................... 51
Gambar 4.4 Sequence diagram login ..................................................... 52
Gambar 4.5 Sequence diagram cari produk .......................................... 52
Gambar 4.6 Sequence diagram daftar .................................................... 53
Gambar 4.7 Sequence diagram perbarui profil .................................... 54
Gambar 4.8 Sequence diagram transaksi pembelian ............................ 55
Gambar 4.9 Sequence diagram kelola wishlist (memasukan wishlist) ... 55
Gambar 4.10 Sequence diagram kelola wishlist (menghapus wishlist) ..... 56
Gambar 4.11 Sequence diagram kelola produk (memasukan produk) ... 56
Gambar 4.12 Sequence diagram kelola produk (mengedit produk) ....... 57
Gambar 4.13 Sequence diagram kelola produk (menghapus produk) ..... 58
Gambar 4.14 Sequence diagram kelola berita ....................................... 58
Gambar 4.15 Sequence diagram kelola user (memasukan user) .......... 59
Gambar 4.16 Sequence diagram kelola user (menghapus user) ............. 60
Gambar 4.17 Sequence diagram kelola user (mengedit user) ............... 60
Gambar 4.18 Sequence diagram db_backup ......................................... 61
Gambar 4.19 Sequence diagram db_restore ........................................... 62
Gambar 4.20 Sequence diagram kelola transaksi penjualan ........................................ 62
Gambar 4.21 Sequence diagram buat laporan penjualan ........................................... 63
Gambar 4.22 Sequence diagram buat laporan produk .............................................. 64
Gambar 4.23 Sequence diagram buat laporan pelanggan ........................................... 64
Gambar 4.24 Sequence diagram cari laporan ............................................................ 65
Gambar 4.25 Sequence diagram cari wishlist ............................................................ 66
Gambar 4.26 Perancangan class diagram Machine X Rebel ..................................... 67
Gambar 5.1 Implementasi struktur menu halaman admin .......................................... 72
Gambar 5.2 Implementasi user interface menu halaman admin .................................... 72
Gambar 5.3 Implementasi struktur menu halaman staf gudang ................................. 73
Gambar 5.4 Implementasi user interface menu halaman staf gudang .......................... 74
Gambar 5.5 Implementasi struktur menu halaman pelanggan ..................................... 74
Gambar 5.6 Implementasi user interface menu halaman pelanggan ............................. 75
Gambar 5.7 Implementasi struktur menu halaman marketing ..................................... 76
Gambar 5.8 Implementasi user interface menu halaman marketing ............................. 77
Gambar 5.9 Implementasi struktur menu halaman manager ...................................... 77
Gambar 5.10 Implementasi user interface menu halaman manager .............................. 78
Gambar 5.11 Implementasi sistem halaman admin (login) ........................................ 79
Gambar 5.12 Implementasi sistem halaman admin (menu admin) ............................... 79
Gambar 5.13 Implementasi sistem halaman admin (kelola user) ............................... 80
Gambar 5.14 Implementasi sistem halaman admin (masukan user) ............................. 80
Gambar 5.15 Implementasi sistem halaman admin (kelola user untuk edit) .................. 81
Gambar 5.16 Implementasi sistem halaman admin (edit user) .................................... 81
Gambar 5.17 Implementasi sistem halaman admin (menghapus user) .......................... 82
Gambar 5.18 Implementasi sistem halaman admin (db_backup) ................................. 82
Gambar 5.19 Implementasi sistem halaman admin (db_restore) ................................ 82
Gambar 5.20 Implementasi sistem halaman staf gudang (login) ................................ 83
Gambar 5.21 Implementasi sistem halaman staf gudang (menu staf gudang) .............. 83
Gambar 5.22 Implementasi sistem halaman staf gudang (kelola produk) ..................... 84
Gambar 5.23 Implementasi sistem halaman staf gudang (memasukan produk) .......... 84
Gambar 5.24 Implementasi sistem halaman staf gudang (kelola produk untuk edit) .... 85
Gambar 5.25 Implementasi sistem halaman staf gudang (edit produk) ................. 85
Gambar 5.26 Implementasi sistem halaman staf gudang (menghapus produk) ....... 85
Gambar 5.27 Implementasi sistem halaman staf gudang (kelola berita) ................. 86
Gambar 5.28 Implementasi sistem halaman staf gudang (kelola promo) ............... 86
Gambar 5.29 Implementasi sistem halaman pelanggan (login) ........................... 87
Gambar 5.30 Implementasi sistem halaman pelanggan (menu pelanggan) ............... 87
Gambar 5.31 Implementasi sistem halaman pelanggan (keranjang belanja) ......... 88
Gambar 5.32 Implementasi sistem halaman pelanggan (wishlist pelanggan) ........... 88
Gambar 5.33 Implementasi sistem halaman pelanggan (profil pelanggan) ............... 88
Gambar 5.34 Implementasi sistem halaman pelanggan (ubah password) ............... 89
Gambar 5.35 Implementasi sistem halaman pelanggan (pesan) .......................... 89
Gambar 5.36 Implementasi sistem halaman marketing (login) ........................... 90
Gambar 5.37 Implementasi sistem halaman marketing (menu marketing) ............ 90
Gambar 5.38 Implementasi sistem halaman marketing (kelola transaksi) ............. 91
Gambar 5.39 Implementasi sistem halaman marketing (buat laporan penjualan) ..... 91
Gambar 5.40 Implementasi sistem halaman marketing (buat laporan produk) ....... 91
Gambar 5.41 Implementasi sistem halaman marketing (buat laporan pelanggan) .... 92
Gambar 5.42 Implementasi sistem halaman manager (login) ............................ 92
Gambar 5.43 Implementasi sistem halaman manager (menu manager) ................. 93
Gambar 5.44 Implementasi sistem halaman manager (cari wishlist) ................. 93
Gambar 5.45 Implementasi sistem halaman manager (cari laporan) .................... 94
