DAFTAR TABEL

Tabel II-1 Daftar Simbol-simbol dalam UML (Unified Modelling Language) ..... II-10
Tabel II-2 Daftar Simbol Use Case Diagram ......................................................... II-12
Tabel III-1 Evaluasi Sistem yang Berjalan .......................................................... III-3
Tabel IV-1 Definisi Aktor ....................................................................................... IV-4
Tabel IV-2 Definisi Use Case ............................................................................... IV-4
Tabel IV-4 Skenario Use Case Aplikasi Penjualan Berbasis Web Tojan Store .... IV-5
Tabel IV-5 Skenario Use Case Login Admin .......................................................... IV-6
Tabel IV-6 Tabel Login ....................................................................................... IV-15
Tabel IV-7 Tabel Data Admin ............................................................................... IV-15
Tabel IV-8 Tabel Info ........................................................................................ IV-16
Tabel IV-9 Tabel Managemen Menu ................................................................ IV-16
Tabel IV-10 Tabel Data User ............................................................................... IV-17
Tabel IV-11 Tabel Registrasi Pembelian ............................................................... IV-17
Tabel IV-13 Daftar Produk .................................................................................... IV-18
Tabel IV-14 Karakteristik Pengguna Admin .......................................................... IV-23
Tabel IV-15 Karakteristik Pengguna User .............................................................. IV-23
Tabel V-1 Pengujian Perangkat Form Admin ....................................................... V-15
Tabel V-2 Pengujian Perangkat Form User .......................................................... V-18
