2.5.1 Layanan Perpustakaan ................................................................. II-6
2.5.2 Unsur Layanan Perpustakaan ..................................................... II-6
2.5.3 Jenis Layanan Perpustakaan ....................................................... II-8
2.5.4 Fungsi Perpustakaan Sekolah .................................................... II-10

2.6 Waterfall Model ........................................................................... II-11

2.7 CodeIgniter .................................................................................. II-12
2.7.1 Pengertian CodeIgniter ............................................................. II-12
2.7.2 Framework ................................................................................ II-13
2.7.3 Pemodelan MVC (Model, View, Controller) .............................. II-14
2.7.4 URI (Universal Resource Indentifier) ......................................... II-16
2.7.5 Helper ......................................................................................... II-17
2.7.6 Daftar File Helper CodeIgniter .................................................. II-18

2.8 Unified Modeling Language .......................................................... II-20
2.8.1 Use Case Diagram ..................................................................... II-22
2.8.2 Class Diagram ........................................................................... II-25
2.8.3 Sequence Diagram ..................................................................... II-27
2.8.4 Collaboration Diagram .............................................................. II-28
2.8.5 Statechart Diagram ................................................................... II-29
2.8.6 Activity Diagram ......................................................................... II-30
2.8.7 Component Diagram .................................................................. II-30

2.9 OOP (Object Oriented Programming) .......................................... II-31

2.10 Website ....................................................................................... II-33
2.10.1 Sejarah Singkat Website .......................................................... II-34
2.10.2 Pengertian Website ................................................................. II-35
2.10.3 Pengertian Internet ................................................................. II-36
2.10.4 World Wide Web (WWW) ....................................................... II-37
2.10.5 Browser .................................................................................... II-37
2.10.6 HTTP ....................................................................................... II-38
2.10.7 Web Server .............................................................................. II-38

2.11 Definisi Database ......................................................................... II-39

2.12 Tools Perangkat Lunak ............................................................... II-40
2.12.1 Definisi XAMPP ...................................................................... II-40
BAB III ANALISIS SISTEM ................................................................. III-1
3.1 Objek Penelitian ........................................................................ III-1
  3.1.1 Sejarah Singkat SMK YP 17 Cilegon ........................................ III-1
  3.1.2 Visi dan Misi SMK YP 17 Cilegon ......................................... III-2
  3.1.3 Struktur Organisasi SMK YP 17 Cilegon ............................... III-2
3.2 Analisis Sistem Lama .................................................................. III-7
  3.2.1 Analisis Fungsional ............................................................... III-7
  3.2.2 Analisis Sistem yang Sedang Berjalan .................................... III-7
  3.2.3 Skenario Proses Sistem yang Sedang Berjalan ......................... III-9
  3.2.4 Kelemahan Sistem Lama yang Sedang Berjalan ...................... III-9
  3.2.5 Analisis Non Fungsional ........................................................ III-10
    3.2.5.1 Analisis Perangkat Lunak ................................................ III-10
    3.2.5.2 Analisis Perangkat Keras ................................................. III-11
  3.2.6 Analisis Sistem yang Diusulkan ............................................. III-11
  3.2.7 Skenario Proses Sistem yang Diusulkan ................................ III-12

BAB IV PERANCANGAN SISTEM ................................................ IV-1
4.1 Perancangan Sistem .................................................................. IV-1
4.2 Perancangan Menu .................................................................... IV-2
4.3 Model Use Case Business ........................................................... IV-2
  4.3.1 Definisi Aktor ....................................................................... IV-2
  4.3.2 Diagram Use Case Sistem Informasi Perpustakaan ............... IV-3
  4.3.3 Skenario Use Case Sistem Informasi Perpustakaan ............... IV-4
    4.3.3.1 Skenario Use Case Manajemen Master Data .................. IV-4
    4.3.3.2 Skenario Use Case Cetak Kartu Anggota ....................... IV-4
    4.3.3.3 Skenario Use Case Peminjaman Buku ......................... IV-5
4.3.3.4 Skenario Use Case Pengembalian Buku .................................. IV-6
4.3.3.5 Skenario Use Case Pencetakan Laporan .................................. IV-7
4.3.3.6 Skenario Use Case Lihat Profil ................................................ IV-8
4.3.3.7 Skenario Use Case Cari Data Buku ............................................. IV-8
4.3.3.8 Skenario Use Case Lihat Riwayat Peminjaman ......................... IV-9
4.3.3.9 Skenario Use Case Login Admin ............................................. IV-9
4.3.3.10 Skenario Use Case Login Anggota .......................................... IV-10
4.3.3.11 Skenario Use Case Ganti Password ..................................... IV-10

4.3.4 Realisasi Use Case Tahap Analisis ................................................ IV-11

4.3.5 Class Diagram Sistem Informasi Perpustakaan ............................. IV-11

4.3.6 Kamus Data ..................................................................................... IV-12

4.3.7 Struktur Pengkodean ....................................................................... IV-16

4.3.8 Realisasi Use Case Tahap Perancangan ........................................ IV-17

4.3.8.1 Activity Diagram Sistem Informasi Perpustakaan ....................... IV-17
  4.3.8.1.1 Activity Diagram Manajemen Master Data ............................. IV-17
  4.3.8.1.2 Activity Diagram Cetak Kartu Anggota ................................. IV-18
  4.3.8.1.3 Activity Diagram Peminjaman Buku ..................................... IV-19
  4.3.8.1.4 Activity Diagram Pengembalian Buku ................................ IV-20
  4.3.8.1.5 Activity Diagram Pencetakan Laporan ................................ IV-21
  4.3.8.1.6 Activity Diagram Lihat Profil ............................................. IV-22
  4.3.8.1.7 Activity Diagram Cari Data Buku ......................................... IV-23
  4.3.8.1.8 Activity Diagram Lihat Riwayat Peminjaman ....................... IV-24
  4.3.8.1.9 Activity Diagram Login Admin ........................................ IV-25
  4.3.8.1.10 Activity Diagram Login Anggota ..................................... IV-26
  4.3.8.1.11 Activity Diagram Ganti Password .................................. IV-27

4.3.8.2 Sequence Diagram Sistem Informasi Perpustakaan .................... IV-27
  4.3.8.2.1 Sequence Diagram Manajemen Master Data ........................ IV-28
  4.3.8.2.2 Sequence Diagram Cetak Kartu Anggota ............................. IV-29
  4.3.8.2.3 Sequence Diagram Peminjaman Buku ................................. IV-29
  4.3.8.2.4 Sequence Diagram Pengembalian Buku ............................. IV-30
  4.3.8.2.5 Sequence Diagram Pencetakan Laporan ............................. IV-31
  4.3.8.2.6 Sequence Diagram Lihat Profil ........................................ IV-31
4.3.8.2.7 *Sequence Diagram* Cari Data Buku ........................................ IV-32
4.3.8.2.8 *Sequence Diagram* Lihat Riwayat Peminjaman ............... IV-33
4.3.8.2.9 *Sequence Diagram* Login Admin ....................................... IV-33
4.3.8.2.10 *Sequence Diagram* Login Anggota ................................... IV-34
4.3.8.2.11 Ganti *Password* ............................................................... IV-34

4.3.9 *Layout* Antarmuka Sistem Informasi Perpustakaan .................. IV-35
4.3.9.1 *Layout* Halaman Beranda Perpustakaan ............................... IV-35
4.3.9.2 *Layout* Halaman Profil Perpustakaan ................................... IV-36
4.3.9.3 *Layout* Halaman Beranda Anggota ....................................... IV-36
4.3.9.4 *Layout* Halaman Profil Anggota ........................................ IV-36
4.3.9.5 *Layout* Halaman Cari Buku ................................................... IV-37
4.3.9.6 *Layout* Halaman Riwayat Peminjaman ................................. IV-37
4.3.9.7 *Layout* Halaman Ganti *Password* ................................................ IV-38
4.3.9.8 *Layout* Halaman Login Admin .............................................. IV-38
4.3.9.9 *Layout* Halaman Beranda Admin ........................................ IV-39
4.3.9.10 *Layout* Halaman Master Data Anggota ............................... IV-40
4.3.9.11 *Layout* Halaman Tambah Data Anggota ............................. IV-40
4.3.9.12 *Layout* Halaman Edit Data Anggota ................................ IV-41
4.3.9.13 *Layout* Halaman Cetak Kart Anggota ................................ IV-41
4.3.9.14 *Layout* Halaman Master Data Buku ................................ IV-42
4.3.9.15 *Layout* Halaman Tambah Data Buku .................................. IV-42
4.3.9.16 *Layout* Halaman Edit Data Buku ......................................... IV-43
4.3.9.17 *Layout* Halaman Master Data Klasifikasi ............................ IV-43
4.3.9.18 *Layout* Halaman Tambah Data Klasifikasi .......................... IV-44
4.3.9.19 *Layout* Halaman Edit Data Klasifikasi ................................ IV-44
4.3.9.20 *Layout* Halaman Master Data Petugas ................................ IV-45
4.3.9.21 *Layout* Halaman Tambah Data Petugas ................................. IV-45
4.3.9.22 *Layout* Halaman Edit Data Petugas ...................................... IV-46
4.3.9.23 *Layout* Halaman Peminjaman Buku ...................................... IV-46
4.3.9.24 *Layout* Halaman Pengembalian Buku .................................. IV-47
4.3.9.25 Halaman Laporan Daftar Anggota ...................................... IV-47
4.3.9.26 *Layout* Halaman Laporan Daftar Buku ................................ IV-48
BAB V IMPLEMENTASI DAN PENGUJIAN SISTEM......................... V-1

5.1 Implementasi ................................................................. V-1
5.2 Lingkup dan Batasan Implementasi .............................. V-2
5.3 Kebutuhan Sumberdaya.................................................. V-2
  5.3.1 Kebutuhan Perangkat Keras (Hardware) .................... V-2
  5.3.2 Kebutuhan Perangkat Lunak (Software) .................. V-2
5.4 Implementasi Antarmuka.............................................. V-3
  5.4.1 Implementasi Antarmuka Login Admin .................... V-3
  5.4.2 Implementasi Antarmuka Halaman Admin ................ V-3
  5.4.3 Implementasi Antarmuka Data Anggota pada Admin .... V-4
  5.4.4 Implementasi Antarmuka Data Buku pada Admin ....... V-4
  5.4.5 Implementasi Antarmuka Data Klasifikasi pada Admin .. V-5
  5.4.6 Implementasi Antarmuka Data Petugas pada Admin .... V-5
  5.4.7 Implementasi Antarmuka Transaksi Peminjaman pada Admin .... V-6
  5.4.8 Implementasi Antarmuka Transaksi Pengembalian pada Admin ...... V-6
  5.4.9 Implementasi Antarmuka Laporan Daftar Anggota pada Admin .... V-7
  5.4.10 Implementasi Antarmuka Laporan Daftar Buku pada Admin .... V-7
  5.4.11 Implementasi Antarmuka Laporan Data Peminjaman pada Admin .... V-8
  5.4.12 Implementasi Antarmuka Laporan Data Pengembalian pada Admin ................................................................. V-8
  5.4.13 Implementasi Antarmuka Login Anggota........................ V-9
  5.4.14 Implementasi Antarmuka Profil Perpustakaan pada Anggota .... V-9
  5.4.15 Implementasi Antarmuka Halaman Anggota ................ V-10
  5.4.16 Implementasi Antarmuka Profil Saya pada Anggota ....... V-10
  5.4.17 Implementasi Antarmuka Cari Buku pada Anggota .......... V-11
5.4.18 Implementasi Antarmuka Riwayat Peminjaman pada Anggota ....... V-11
5.4.19 Implementasi Antarmuka Ganti Password ................................. V-12
5.5 Hasil Pengujian ................................................................................ V-12
5.6 Pengujian Perangkat Lunak............................................................... V-12

BAB VI PENUTUP ...................................................................................... VI-1
6.1 Kesimpulan ...................................................................................... VI-1
6.2 Saran ............................................................................................... VI-1
