DAFTAR ISI

LEMBAR PENGESAHAN ........................................................................... i
SURAT PERNYATAAN ........................................................................... ii
ABSTRACT ............................................................................................... iii
ABSTRAK ................................................................................................. iv
KATA PENGANTAR ................................................................................. v
DAFTAR ISI ............................................................................................. vii
DAFTAR SIMBOL .................................................................................... xii
DAFTAR TABEL ....................................................................................... xv
DAFTAR GAMBAR .................................................................................. xiii

BAB I PENDAHULUAN ........................................................................... I-1

1.1 Latar Belakang Masalah ................................................................. I-1
1.2 Rumusan Masalah ....................................................................... I-2
1.3 Maksud dan Tujuan Penelitian .................................................. I-3
1.4 Batasan Masalah .......................................................................... I-3
1.5 Metodologi .................................................................................. I-3
1.6 Sistematika Penulisan ................................................................ I-5

BAB II KEADAAN UMUM INSTANSI ................................................... II-1

2.1 Sejarah Singkat Disdik Kota Bandung ...................................... II-1
2.2 Visi dan Misi ............................................................................... II-2

2.2.1 Misi Disdik Kota Bandung ..................................................... II-3
2.2.2 Sasaran Strategis Disdik Kota Bandung ......................... II-3

2.2.2.1 Pendidikan Dasar ............................................................. II-4
BAB II  LANDASAN TEORI ................................................................. III-1

3.1 Pemetaan ................................................................................. III-1

3.2 Peta Digital ............................................................................. III-2

3.3 Sistem Informasi Geografis .................................................. III-3

3.3.1 Komponen Utama SIG .................................................. III-4

3.3.2 SIG Berbasis Web ......................................................... III-6

3.4 SIG Berbasis Web Denga Google Maps ............................... III-7

3.4.1 Cara Kerja Google Maps ........................................ III-11

3.4.2 Google Maps Application Programming interface .... III-12

3.5 NetBeans IDE 7.3 ............................................................. III-13

3.6 XAMPP 1.8.2 ................................................................. III-13

3.7 Codeigniter Framework ................................................... III-14

3.8 Model Rekayasa Perangkat Lunak dengan Waterfall ........ III-17

3.9 Model Data Entity Relationship .......................................... III-20

3.10 Unified Modeling Language ............................................. III-21

3.10.1 Konsep Dasar .............................................................. III-22

3.10.2 Use Case Diagram ....................................................... III-23

3.10.3 Class Diagram ............................................................. III-24

3.10.4 Sequence Diagram ....................................................... III-25
BAB IV ANALISIS ................................................................. IV-1

4.1 Identifikasi Masalah ...................................................... IV-1
4.2 Prinsip Kerja Sistem yang sedang Berjalan ...................... IV-1
4.3 Prinsip Kerja dari Sistem yang diusulkan ....................... IV-2
  4.3.1 Penggunaan Sistem ................................................ IV-2
  4.3.2 Prosedur Sistem yang diusulkan ................................. IV-2
4.4 Hasil Analisa ............................................................. IV-4
4.5 Kebutuhan Sistem ........................................................ IV-4
  4.5.1 Sistem Requirement ................................................. IV-5
  4.5.2 Bussines Modeling .................................................. IV-6
    4.5.2.1 Deskripsi Use Case ........................................ IV-7
    4.5.2.2 Use Case Diagram .......................................... IV-9
    4.5.2.3 Skenario Use Case ......................................... IV-9
    4.5.2.4 Diagram Kelas Tahap Analisis .............................. IV-16
  4.5.3 Data Modeling ....................................................... IV-18

BAB V PERANCANGAN SISTEM ............................................ V-1

5.1 Perancangan Sistem Menggunakan sequence Diagram .......... V-1
5.2 Perancangan Class Diagram .......................................... V-13
  5.2.1 Perancangan Class pada Model ................................. V-14
  5.2.2 Perancangan View ................................................ V-14
5.2.3 Perancangan Controller ........................................... V-15

5.2.4 Class Diagram ..................................................... V-15

5.3 Perancangan Antar Muka ........................................... V-18

BAB VI IMPLEMENTASI DAN PENGUJIAN SISTEM ............... VI-1

6.1 Lingkungan Implementasi ........................................... VI-1

6.1.1 Lingkungan Implementasi untuk Server ..................... VI-1

6.2 Implementasi Database ............................................. VI-1

6.3 Implementasi Struktur Program .................................. VI-5

6.4 Penjelasan Struktur Program ..................................... VI-7

6.5 Implementasi User Interface ..................................... VI-10

6.6 Pengujuan Sistem .................................................. VI-24

BAB VII KESIMPULAN DAN SARAN ................................. VII-1

7.1 Kesimpulan ......................................................... VII-1

7.2 Saran ................................................................... VII-1

DAFTAR PUSTAKA ......................................................... xii
