## BAB I  PENDAHULUAN

1.1 Latar Belakang Masalah ......................................................................................... 1
1.2 Rumusan Masalah ................................................................................................. 1
1.3 Batasan Masalah ................................................................................................... 2
1.4 Tujuan Penelitian ................................................................................................. 2
1.5 Metode Penelitian ............................................................................................... 3
1.6 Sistematika Penulisan .......................................................................................... 3

## BAB II  LANDASAN TEORI

2.1 Virtual Private LAN Service (VPLS) .................................................................. 5
2.2 Multi Protocol Label Switching (MPLS) ............................................................ 6
2.3 Cara Kerja MPLS ................................................................................................. 6
2.4 Multicast ............................................................................................................... 8
2.5 Lapisan multicasting ........................................................................................... 9
2.6 Parameter Quality of Service ............................................................................... 10
2.7 Model kemampuan jaringan ................................................................................ 13
2.8 Optimisasi pohon multicast ............................................................................... 15
2.9 GNS3 .................................................................................................................... 17
2.10 Wireshark .......................................................................................................... 18
2.11 Virtualbox .......................................................................................................... 18
2.12 VLC Media Player .............................................................................................. 18
