2.5.1. Algoritma Fuzzy Logic.................................................. II-9
2.5.2. Algoritma Collision Detection......................................... II-10
2.5.3. Algoritma Fisher Yates Suffle ........................................ II-11
2.6. Multimedia Development Life Circle (MDLC)........................ II-13
2.7. Unified Modelling Language (UML) .................................. II-15
   2.7.1. Use case Diagram .................................................. II-16
   2.7.2. Class Diagram ....................................................... II-16
   2.7.3. Activity Diagram .................................................... II-16
   2.7.4. Sequence Diagram .................................................. II-17
   2.7.5. State Diagram ....................................................... II-17
   2.7.6. Deployment Diagram ................................................ II-17
2.8. Unity 3D ........................................................................... II-17
2.9. Blender ............................................................................. II-18
2.10. Adobe Photoshop ............................................................ II-19

BAB III ANALISIS DAN PERANCANGAN .......................... III-1

1.1. Analisis Kebutuhan ......................................................... III-1
   1.1.1. Analisis Kebutuhan Fungsional ..................................... III-1
   1.1.2. Analisis Kebutuhan Non Fungsional ............................... III-3
1.2. Perancangan Sistem ........................................................ III-4
   1.2.1. Use Case Diagram My Butterfly ................................... III-4
   1.2.2. Scenario Use Case Diagram My Butterfly ...................... III-5
   1.2.3. Class Diagram My Butterfly ......................................... III-11
   1.2.4. Activity Diagram My Butterfly ..................................... III-12
   1.2.5. Sequence Diagram My Butterfly ................................... III-16
   1.2.6. State Diagram My Butterfly ......................................... III-20

BAB IV IMPLEMENTASI DAN PENGUJIAN .......................... IV-1

4.1. Hardware dan Software yang Digunakan ............................... IV-1
   4.1.1. Perangkat Lunak (Software) yang Digunakan ................ IV-1
   4.1.2. Perangkat Keras (Hardware) yang Digunakan ................ IV-2
4.2. Perangkat Pengujian ........................................................ IV-2
4.3. Implementasi Use Case ................................................................. IV-3
4.4. Implementasi Algoritma ............................................................... IV-3
  4.4.1. Algoritma Fuzzy Logic ......................................................... IV-3
  4.4.2. Algoritma Collision Detection ............................................. IV-3
  4.4.3. Algoritma Fisher Yates Suffle ............................................ IV-4
4.5. Implementasi User Interface ....................................................... IV-4
4.6. Penguian ..................................................................................... IV-11
4.7. Evaluasi ....................................................................................... IV-26
  4.7.1. Tingkat Respon Terhadap Audio dan Video ......................... IV-28
  4.7.2. Tingkat Respon Terhadap Tata Letak Layar ......................... IV-29
  4.7.3. Tingkat Respon Terhadap Tujuan Game ............................... IV-30
  4.7.4. Tingkat Respon Terhadap Indikator Pada Game .................. IV-31
  4.7.5. Tingkat Respon Terhadap Istilah-Istilah pada Game .......... IV-32
  4.7.6. Tingkat Respon Terhadap Navigasi Game ......................... IV-33
  4.7.7. Tingkat Respon Terhadap Tombol Kontrol ......................... IV-34
  4.7.8. Tingkat Respon Terhadap Kontrol Game ............................ IV-35
  4.7.9. Tingkat Respon Terhadap Hafalan Pemain .......................... IV-36
  4.7.10. Tingkat Respon Terhadap Gameplay ................................ IV-37
  4.7.11. Tingkat Respon Terhadap Pengalaman Bermain ............... IV-38
  4.7.12. Tingkat Respon Terhadap Alur Cerita Game ..................... IV-39
  4.7.13. Tingkat Respon Terhadap Kebosanan Player ..................... IV-40
  4.7.14. Tingkat Respon Terhadap Gaya Bermain .......................... IV-41

BAB V. KESIMPULAN DAN SARAN .................................................. V-1

5.1. Kesimpulan .................................................................................. V-1
5.2. Saran ............................................................................................ V-2
