ACKNOWLEDGEMENT

I am really thank indeed to National Polytechnic Institute of Cambodia Widyatama University for give a chance to me for this Double degree. As long as the preparation pf this task report is not the least of the difficulty I am facing as the author of this report, especially because of the limited ability and also the lack of knowledge that is owned by the author, but thanks to the help and guidance of various parties that all the difficulty facing obstacles faced can be curtailed well. In relation to these matters, it is with all humility to write thanking the honorable:

1. Mr. Viddi Mardiansyah, S.Si., M.T., Ccna., Ccai., as a supervising lecturer who has been always willing to take the time to guide, explain, examine, and provide guidance in the drafting of this thesis report.
2. Dr. Oktri M. Firdaus, M.T. as the Dean of Faculty of Informatics Engineering, Faculty of Engineering of Widyatama University Bandung.
3. Mrs. Sriyani Violina, S.T., M.T., as Head of Programs Informatics Engineering Faculty of Engineering Widyatama University Bandung.
4. Mr Dany Indra Gunawan, S.T., thank for helping to provide direction and information.
5. Colleagues in Informatics Engineering Program Widyatama University Bandung. All parties who have helped both directly.

In conclusion, the author hope that this Final Report can be useful and especially for writers, readers, and parties in need.
